

2350 Bor-Max™ Series Earth Augers

Blade-Type Boring Head Configurations

The 2350 Blade-Type Series earth augers and auger extension are designed specifically for use with General 200 Series hole digging products and represent over five decades of auger design expertise and field experience. Available in 51 mm (2 inch) to 203 mm (8 inch) nominal diameters. Standard 760 mm (30 inch) effective auger digging length. The plain shaft-type auger extension can be used with all augers and increase the digging depth by 381 mm (15 inches).

Blade-type boring head configurations offer excellent digging performance for small, hand-held type earth auger products when drilling through unconsolidated soil classifications such as loams, sands, soft clays and granular rubbles.
