

SURFACE PREPARATION Strippers

FEATURES

- 10 inch maximum cutting blade width
- Unitized, welded steel frame
- Detachable steel handle
- Anti-Vibe™ caster wheels
- Compact design for easy transport

FCS10 GEN 2 RIP-R-STRIPPER® FLOOR COVERING STRIPPER

The FCS10 Gen 2 RIP-R-STRIPPER® is a highly productive solution for removing a wide range of floor covering materials found on both commercial and DIY projects. Its small size and light weight design makes it highly productive in hard to reach areas such as bathrooms, closets and foyers. The detachable operator handle allows for easy transport in today's smaller vehicles. Enhanced operator ergonomics and precise balance allow the FCS10 to work circles around larger stripper machines that lack the same agility and maneuverability. A wide range of straight and scoring type blades up to 10 inch cutting width are available for use on wood and concrete surfaces.

SPECIFICATIONS

Operating Environment	Nonhazardous type locations
Power	2300W, 115VAC, 60HZ, 15 amperes
